

**you need:**

- pencils
- four 1–6 dice

# Making 12

 for 2 players**When it's your turn**

Roll the dice and say all the numbers.

Can you add any of the numbers to make 12?

For example,  $3 + 3 + 6$   
or  $1 + 6 + 5$ .

If you can make 12, say which numbers you are using. Draw a ring round one of the 12s, in your own colour.

If you can't make 12, that is the end of your turn.

**The rest of the game**

Go on until all the 12s are won.

Who has most 12s? They win.
